Thank you Kim

We will look at this and get you our thoughts as soon as possible, or will let you know if a call would be helpful.

Subject: Aquila Back 40

Hello all

Peter, I left you a voicemail early in the week advising you that I would be sending a new version of the permit conditions for the Aquila wetland permit. Better late than never – it took me longer than I anticipated, but here it is.

We have been meeting with the Aquila consultants and attorneys several times over the last few weeks discussing clarifications to the permit conditions. As they are developing the monitoring plans and working out details of the project, questions have come up and they have requested us to clarify some issues. Admittedly as we took another look at some of the conditions, some were confusing and not as clear as they could have been. So our intent with the attached document is to clarify some of the permit conditions, it is not our intent to modify the permitted project or the essential requirements of the permit.

Can you please review the attached document and provide me your comments. The document is in track changes, and I have added comments to help track and explain some of the changes. Please let me know if you have any questions, and if it would be easier to go through this on a phone call I would be happy to do that.

Have a nice weekend.
